

# Powell, McGee Associates, Inc.

*servicing customers in the plastics industry for over 25 years  
Manufacturers' Representative & Custom Machine Shop*

You know us as your source for ultrasonic tooling. But did you realize that we have a fully equipped custom machine shop that is capable of filling many of your other machining needs? Our machinists have over fifty years of combined experience. Couple that with our well equipped shop and dedication to customer service, and we have what we need to handle your job.

A partial list of our capabilities is below.

- Bridgeport EZPath 2-axis Programmable Turning Center (17" swing - 40" centers)
- Milltronic VM17 3-axis Programmable Machining Center (30" x 16" table travel)
- Bridgeport EZTrak 2-axis Programmable Knee Mill (30" x 12" table travel)
- Sharp 2-axis Programmable Knee Mill (30" x 12" table travel)
- Surfcam Design and Machining Program
